ABOUT ME

I fell in love with frontend, mobile and web programming.

I want to provide the best *User experience* in the projects I'm involved with.

I've worked with HTML, CSS, SCSS, TypeScript, Angular, Ionic, JavaScript, Cordova and Git.

WORK EXPERIENCE

07/2018 – CURRENT

Frontend developer

Cambridge Digital Health

I play an integral part in the CDH development of applications for the healthcare market, providing consulting services that reduce the administrative workload in healthcare facilities and that optimize the flow and care of patients. I have worked in challenging projects such as I*ICU Diary*, *Cambridge Pain Seminar*, *Network Status* and *Hear Glue Ear*, this last one the winner of *Children's app of the year award* at the *UK App Awards* 2019.

01/2017 – 07/2018

Frontend developer

IPBRICK SA

I worked as frontend developer of iPortalDoc, an integrated solution for document and process management and developed IPBRICK SA's first mobile application, iPortalDoc Mobile, a hybrid application for iOS and Android.

EDUCATION AND TRAINING

09/2011 – 06/2017

Master's degree in Electrical and Computer Engineering

Faculdade de Engenharia da Universidade do Porto

The study program covered scientific areas such as Automation, Computer Science, Industrial Management and Mathematics. I finished my course with the delivery of my master's thesis - iPortalDoc Mobile.
